Friday General Session (2 CE) 3:00PM - 5:00PM

Dr. Robert Silverman: Musculoskeletal Nutrition: Proven protocols for clinical success (2 CEs)
Gain insight into a simple methodology for implementing a clinically effective system that you can immediately apply to your practice. Join Dr. Robert Silverman as he explores the relationship between nutrition and the manifestation of joint pain. In this exciting seminar, he will discuss the process of acute and chronic inflammation and share the impact that specific nutrients can have on the management of the discomfort arising from the inflammatory process. This seminar is ideal for any practitioner that addresses soft tissue, joint, and/or chronic pain syndromes.

Saturday General Session (2 CE) 8:00AM - 10:00AM

Dr. Brandon Steele: Game Changers: Practical Research from the Past Year for Improving Clinical Outcomes (2 CEs) This fast-paced and entertaining 2-hour presentation will cover what the past 24 months of literature has revealed about the best practice management for the most common clinical presentations. This presentation will include demonstrations of the essential skills for successfully managing the most common MSK complaints. This workshop will review current "best practices" for evaluating, treating, and directing simple in-office or home-based rehab. Attendees will leave this class with greater understanding and confidence about how to manage the most common presenting problems.

Saturday Nutrition Track (6 CE)- Dr. Dan Murphy 8:00AM - 4:00PM with breaks

Dr. Dan Murphy: Recent Advancements in the Science of Chiropractic and Associated Nutrition (6 CEs)
You may have experienced world-renowned expert Dr. Dan Murphy at our virtual convention - now see him LIVE, in-person at this year's convention! Dr. Murphy will be covering the up-to-the-minute latest in research and knowledge of the recent advancements in the science of chiropractic and associated nutrition. This full-day session starts at 8am on Saturday!

Saturday Breakout Sessions (4 CE) 10:30AM - 4:00PM with breaks

Dr. Mike Powell: Adjusting with the Brain In Mind (4 CEs)
Dr. Powell will make understanding how brain function intersects with your Chiropractic care easy to understand and apply. You will learn techniques that will get patients better faster, allow you to better serve those with challenging conditions and give you new and creative ways to apply Chiropractic adjustments regardless of your preferred techniques. You will see patient videos from Dr. Powell's clinic and participate in a day of hands-on, interactive learning.

Dr. Enrique Flores: Common Pathology Considerations of the Lower Extremity in Active Care (4 CEs) *Practical Diagnosis, Assessment, Recommendations, and Treatment Tools for the Foot and Knee.*
Dr. Flores explores the most prevalent causes of pain, disease, degeneration, and corrective measures as they relate to the foot and knee with hands-on learning. He offers practical ideas for the evaluation and treatment of the active patient as well as insight into effectively communicating these ideas to patients. This program allows the practitioner to offer simple condition-based care, and to be able to make a proper referral to other specialists if needed. A correlation to teachings regarding basic pathology will be addressed.

Acupuncture Track (6 CE) Saturday 10:30AM - 4:00PM with breaks -AND- SUNDAY 8:00AM - 10:00AM

Dr. Kris Tohtz: Acupuncture Track (6 CE)
Back by popular demand, and now in person, Dr. Kris Tohtz will be educating chiropractic acupuncturists on the art of moxa, cupping, and top 8 conditions a chiro acupuncturist might see in the integrated office. Earn 6 CE's LIVE at the convention, and if you didn't attend her virtual courses last year, you can access the other 6 needed for Acupuncture license renewal via our online webinar system! Visit oscachiro.org to access the courses.

CA Track Sessions - great for DCs too! (0-2 CE) SATURDAY 10:30AM - 4:00PM with breaks

Kristi Hudson, ChiroHealth USA: Crucial Compliant Conversations (Not eligible for CE credit)

Non-compliance in healthcare can have very serious, and sometimes devastating, consequences. There has been an increase in auditors and investigators disguising themselves as new patients in chiropractic offices across the country. Every conversation, starting with, "How much does it cost to see the doctor?" is now under scrutiny. It has never been more crucial to know what to say and when to say it when it comes to talking to patients about finances in your office. In this fast-paced and important training session, master communicator, Kristi Hudson will take team members through sticky scenarios that are encountered in practice every day.

Lisa Maciejewski-West, Gold Star Medical Business Services: What Every Front Desk CA Needs to Know About Insurance (Great for doctors too! - 2 CEs)

This course is for any CA or chiropractor. You will learn:

- Understanding different types of Insurance (Medicare, Medicaid, Commercial, Work Comp, PI)
- Understanding coordination of benefits when patients have more than one insurance plan
- Verifying benefits and its importance
- Understanding patient cost shares (copay, coinsurance, deductible) and rules for OTC collections
- The front desk CA's role in successful claims processing

Sunday General Session (2 CE per course) 8:00AM - 1:00PM

Dr. Sherry McAllister: Pain, Posture, and Performance (2 CEs)

During "Pain, Posture and Performance," F4CP President Dr. Sherry McAllister will offer greater understanding of how to leverage the current trending healthcare topics to maximize the value of chiropractic care. In addition, she will cover research exploring the value of chiropractic care as it relates to pain, posture, and performance.

Dr. Mike Powell: Here's What I Do: 25 years' worth of successful techniques for complicated patients (2 CEs)

This fast-paced presentation is an accumulation of techniques and procedures that have been incredibly helpful to Dr. Powell and his patients. It's what he's learned from other doctors, research, patients, staff and lots of experimenting with trial and error; mostly stuff he wishes he'd have known a long time ago!

Party time!

You did not survive a pandemic to miss out on these fun events!

Friday Night Vendor Reception: October 1, 5:00PM - 7:00PM

When was the last time you got to kick back and relax with your fellow DCs? We know...too long! Immediately following Friday's General Session, join us for a great event with food and adult beverages! We will have the exhibitor hall open as well - say hi to your favorite vendors and check out their booths! Come have a drink on us, connect with friends, and get ready for an awesome weekend! All attendees are invited - the cost is included with your registration!

Hollywood Glamour Reception and Gala: Saturday, October 2, 7:00PM - Midnight

We're rolling out the red carpet for a spectacular night! Break out your glamorous night time attire and join us for our Hollywood Glamour Red Carpet Gala on Saturday night! Pose for our "papparazzi photographers" for a commemorative photo, enjoy a delicious dinner, awards, then dance the night away with the award winning "Best Local Band," The Reagonomics - a fun 80's cover band that has shared stages with major acts, and even played at the Governor's Ball! All attendees are invited - the cost is included with your registration!

Additional guest tickets can be purchased when registering!
